Give Your Child a Stunning Smile in 5 Steps

Step 1: Your child gets treated like the superstar they are

From the minute they walk through the door, our goal is to help them see just how amazing, unique and crazy special they are. They'll never feel like a number.

Step 2: You get a personalized plan that meets goals & budget

In the first visit, we'll do a mouth scan, take radiographs, and go over all the options. We listen carefully to your and your child's concerns and develop the perfect treatment plan to reach goals.

Step 3: Your child starts treatment

It's not scary to come to Lyons. In fact, our patients enjoy the process almost as much as they love their new smile.

Step 4: We guide your child through the process

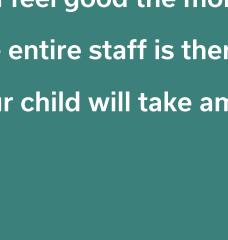

We love watching your child gain confidence throughout the process. As we gently adjust your child's teeth, they stop feeling self-conscious and start holding their head high.

Step 5: Your child's smile lights up a room

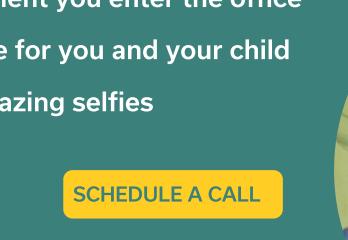

When they achieve their goal, we throw them a party. But we don't say goodbye. We're here for life.
